

Swiss narrow gauge – Rhaetian Railway

RhB – Standard coaches EW IV, 2nd class combine, BD 2475

www.n-schmalspur.de

Prototype:

In the nineties, RhB had lots of travelers, but only ancient coaches. 16 new coaches were bought. They come from PA Schindler, Altenrhein, who made similar coaches for other railway-companies too. It is the 4th generation of new vehicles and got the abbreviation EW IV (Einheitswagen IV).

The doors close automatically and the high roof makes these coaches look different from the older ones.

The BD 2475 set in motion on March, 29th, 1993.

It is about 2 metres shorter as the normal coaches, because of the tight curves on the Bernina-line.

They are coloured red with a brown ribbon along the windows and every day to be seen as part of the Bernina-Express.

Model:

chassis: brass	manual work Made in Germany exact lettering	fine detailed model
superstructure: brass/resin casting		scale 1:160 size N gauge Nm
delivery: ready-to-run	pointed axles browned wheelsets realistic brake shoes	requires 6,5mm-track
