

# Swiss narrow gauge – Rhaetian Railway

RhB – Sliding door wagon Hai-qy 5173 – 5174

www.n-schmalspur.de

### Prototype:

Since 1970 RhB uses four-axled sliding-door-wagons.

In the nineties the company bought further 11 vehicles. Six of them were insulated and heatable, and four had an extra refrigerator. With a special switch one can change the current, so all vehicles can be used on the whole RhB-track.

The Haik-qy 5173 - 5174 were set in motion in 1992. The capacity is at 30,0t.

The wagon has an advertising for "Primo" since 1992 and is still in this state.

Nm

1:160

6,5mm

freight-wagons

### Model:

chassis: brass	manual work Made in Germany exact lettering even at the front and rear sides	fine detailed model
