

Swiss narrow gauge – Rhaetian Railway

RhB – stakecar Kkp 7351 - 7364

Prototype:

A lot of wood has to be logged in the 1980-ies. New vehicles seemed to be too expensive, so rebuild gondolas were rebuilt a second time to stakecars.

The chassis from class M-wagons from 1913 was kept, the superstructure was rebuilt in 1989. New and very strong stakes came to the wagon, the chassis was modernised.

These nice looking vehicles can be seen on the RhB-track all days.
