On International Toy Fair Nuremberg we presented two new versions of Ge4/4¹, but we could not announce the prices and details. This is to be found now in this news-information.

MOB Ge4/4 8001 ff. Nm-208.1 / KT-021.1N/Nm

Art.-Nr./item-no./produit-no.

painting creme-darkblue
former Panoramic Express-design
two roadnumbers: 8001, 8004

This item is available as Nickel-Silver-handmade-model (Nm), with a roof, which has been changed totally into the typical appearance of MOB-locoms, and as a Kato-based version, with turned pantographs and some changes at the roof with some etched parts, to come near to prototype (for N or Nm).

We had much demand for this loco, so we decided to produce two different roadnumbers in this colour-scheme. Locoms are equipped with Rapido-(N), Kato-short-(Nm) or MTL-couplers (Nickel-Silver-handmade-model).

A locodriver is available as accessory (option).

We had planned to announce the prices during toy fair. Now we have decided to lengthen the early-order-phase to the 30th of June 2016.

Nm-208.1: MOB Montreux-Oberland-Bahn Ge4/4 8001 - 8004
Universallokomotive im klassischen Design

The loco is offered in three versions (Nickel-Silver for Nm, or Kato for Nm or N).
The Panoramic Express-coaches are offered in two versions (Kato for Nm or N) only.
Please note the different item-no.s. Thank you.
