Model

We have thoroughly refitted the panorama coaches from the Glacier Express set from Kato. The interior is now MOB-typical blue, with white-covered tables and white protective covers in the head area. We have removed the roof air conditioners and closed the existing openings. The car body is painted gold/anthracite and covered with GoldenPass foils. The upper window bar is also set off in gold.

Prototype

In 1982/83 the As114 and Bs223 were put into operation. In 2001-03 they were lengthened and converted to sliding doors. 1993 the two As153 and As154 were put into operation. These vehicles were already 18,7m long at delivery and equipped with sliding doors. In 2000 they were declassified to Bs251 and Bs252. In 2002/03 all vehicles received the GoldenPass Panoramic design.
