

Novelties Presentation two-axled container-carriage Lb-v

Dear friends of the Swiss narrow-gauge railways, after the delivery of the container novelties of Minitrix is further delayed, we decided to launch a first series of the two-axle carrying wagons type Lb-v. This will enable us to carry out those orders for which we already have the swap bodies and will shorten your waiting time for the next new products.

Our info presents the available models in detail.

In addition to the well-known Swiss post and cargo domino swap bodies, the first motifs of the Coop series are being delivered.

We are still waiting for the cooling containers with orange (novelty 2019) and lettuce motif (novelty 2020).

Also currently not available are the VOLG containers with the Lavin and Mathon motifs.

Model

The models have been thoroughly revised. The metal wheel sets are mounted in light-weight bushings from Lok-Schlosserei and ensure excellent running of the cars. The cars are coupled with the Z-coupling from MicroTrainsLine.
