

Novelties Presentation two-axled container-carriages Lb-v

Dear friends of the Swiss narrow gauge railways, also this year there are more two-axle carrying wagons for swap bodies. After we have been supplied with the blanco containers by Minitrix, we can deliver some of the backlogged models to you at short notice. Our info presents the three models in detail. Yours AB-Modell-team

The models with the VOLG motifs and the Coop swap body with orange motif are currently being delivered. We are still waiting for the refrigerator containers with lettuce (new in 2020) and gerbera motifs (new in 2021).

for track width 6,5mm (Nm)
motif: Coop orange, plastic container (basis Minitrix)
model with new roadnumber

Model

The models, which have been in production again since 2020 after a long break, have been thoroughly revised. The metal wheelsets are now mounted in smooth-running bushings from Lok-Schlosserei and ensure excellent running of the cars. The coupling is made with the Z-coupling from MicroTrains Line. To avoid duplicates, we deliver all models with new car numbers as announced in 2019.

Deliveries

All of the vehicles presented here are in the final completion phase and will be delivered to pre-orderers shortly (orders received by 01.05.2021). The special series with the VOLG motifs is sold out and will no longer be produced. We still have a few motifs available from the sliding wall wagons with Volg lettering. Please refer to our website to see which container loads can currently be ordered. Following this series, we are producing the four-axle carrier wagons type Sbk-v, which will be delivered in the summer.

features

RhB - two-axle carrier wagon Lb-v 7858, loaded with plastic coop-swap body, orange motif (Minitrix)
