

## Novelties Announcement 2021's novelties from Kato-company

Dear friends of the Rhaetian Railway,  
Kato surprisingly announces two new advertising locomotives modelled on the RhB. We have the first models in stock and have compiled the facts for you.  
Have fun reading our newsletter  
Yours

## Re-Gauging

On the basis of the limited Kato model, we carry out our tried and tested gauge conversions to 6.5mm narrow gauge.

The converted models also receive the Kato close coupling and the free-standing handrails at the fronts.

Both are also offered for the N models (9mm), but are subject to an extra charge.

## Prices

As usual in the past, we have taken the recommended retail price of the German general importer with rounded down figures, so that there is already a small price advantage compared to the RRP.

Within the pre-order period, we also offer an early bird discount of 10 Euros, which corresponds to about 5.6%, for the locomotives. Please note the pre-order deadline. We must receive your orders by the specified date.

This offer is only valid as long as we can obtain the corresponding Kato models. We reserve the right to shorten the pre-order period if demand exceeds the available models.

## Delivery

We have pre-ordered a few copies of both models, so we expect to be able to serve the first customers in any case. For converted models, please allow a few additional weeks for the necessary conversions.

We will keep all pre-orderers informed about the availability of their models via e-mail.

## Limitation

We have no information on how many Kato models were produced in these versions. Please order in good time. Only while stocks last!

We publish current prices and delivery dates on our website.
