

Dear friends of the N-narrow gauge,
dear fans of the Swiss narrow gauge railways,

this year's series of new products is like a small round trip through the Swiss Confederation: the focus of our models is the Rhaetian Railway in the very east, we continue with the Furka Oberalp in the middle of Switzerland, with the Montreux-Oberland bernois to Lake Geneva and there from Montreux with the rack railway to the Rochers-de-Naye.

I hope you enjoy reading

RhB - Ge4/4''' 644 Weltrekord

Nm-207.3 / KT-051.5N / KT-051.5Nm

Art.-Nr./item-no./produit-no.

- Fortsetzende Griffstangen, zusätzliche Frontschleusen und Kato-Kurzkupplungen sind optional zubuchbar -

KT-051.5Nm: RhB Ge4/4''' 644, Savognin, mit Weltrekord-Sujet, Spur Nm, mit Kato-Kurzkupplung

modern express locomotive Ge4/4" 644 with advertisement for the successful world record attempt of 29.10.2022

All models are manufactured in our workshop and receive a red colour dress with a grey apron. The motif and lettering are applied by decal.

Available in three versions:

Nm-207.3: Nickel silver/brass handmade model with 2 bell-shaped armature motors with flywheel masses, limited availability only available for Nm gauge

KT-051.5: Kato base model, repainted, newly decorated The Nm-model (KT-051.5Nm) will be equipped with Kato coupling.

The N-model (KT-051.5N) has the standard the classic N-coupling as standard.

Coupling variants, free-standing handles and locomotive drivers are available.

RhB - Einheitswagen I

Nm-114.1/2/3

Art.-Nr./item-no./produit-no.

RhB standard car I project
Nickel silver handmade model
long version for the main network
free running bogies
red with silver trim, modern RhB logo,
extensive technical address block,
according to the 1990s

- Handmaster - Projektstand November 2022 -

**Nm-114.1: RhB Einheitswagen I, Stammnetz, A1223-1243 (1.Kl.)
Neusilber-Handarbeit, Beschriftung der 1990er Jahre**

Nm-114.1: EW I, 1st class A1223-1243,
three different road numbers

The new construction of the Rhaetian Railway's standard coach type I by the company Lok-Schlosserei continues to progress. In the meantime, samples of the 1st class and 2nd class carriages have been added. The still very long delivery times of the etching company mean that we have not yet been able to bring the models to series production.

The project status has progressed so far that we can present the next pre-series models to you. We expect production to start at the end of 2023 at the earliest.

We are already taking pre-orders and thank you for your patience.

We will first realise the red version of the 1990s, with silver trim line, modern RhB logo and extensive technical address block. If there is sufficient demand, we can imagine producing other versions in the model.

- Handmaster -
- Projektstand November 2021 -

**Nm-114.3: RhB Einheitswagen I, Stammnetz, AB1519-1534
(1./2.Kl.), Beschriftung der 1990er Jahre**

Nm-114.3: EW I, 1st/2nd class AB1519-1534,
three different road numbers

- Handmaster - Projektstand November 2022 -

**Nm-114.2: RhB Einheitswagen I, Stammnetz, B2341-2373 (2.Kl.)
Neusilber-Handarbeit, Beschriftung der 1990er Jahre**

Nm-114.2: EW I, 2nd class B2341-2373,
six different road numbers

RhB - Rollschemeel Ua

Nm-021.0

Art.-Nr./item-no./produit-no.

Project of the rolling stool Ua 8331ff.
 Design as 3D print with metal wheel sets
 several vehicle numbers planned

- Beladungsbeispiele, bis max. 31,5mm Achsstand -

- Projektstand: Dezember 2022 -

Nm-021.0: RhB Ua 8331ff., Rollschemeel, unbeladen, 3D-Druck, Handarbeitsmodell für Nm (6,5mm)

In cooperation with the Lemiso company, we have initiated the project of the Ua 8331 rolling stool with a length of 12.6m. Initial tests with the hand samples have been satisfactory, so we would like to give you a first look at the model here.

The rolling stool can be loaded prototypically. Single vehicles up to 31.5mm axle base can be loaded on the trolley.

The model will be a 3D-printed body, in combination with metal wheelsets and the MicroTrains coupling that is common for our handbuilt models. Details will follow as soon as known.

We publish current prices on our website at www.n-schmalspur.de. To be always up to date please subscribe to our newsletter. Thank you very much.

FO - Former Coach

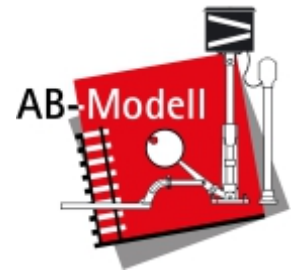

Nm-109.2

Art.-Nr./item-no./produit-no.

Nickel silver handmade model of the two-axle passenger coach three road numbers can be ordered: B 4201 - B 4203 only available for gauge Nm dark red version with interior equipment

Nm-109.2: FO - Furka Oberalp-Bahn, zweiachsiger Altbauwagen, B 4201 - 4203

FO - Half Luggage Wagon

Nm-110.2

Art.-Nr./item-no./produit-no.

Nickel silver handmade model of the two-axle half-luggage wagon two car numbers can be ordered: BF 4281 - BF 4282 only available for gauge Nm dark red version, with silver doors with interior equipment

Nm-110.2: FO - Furka Oberalp-Bahn, zweiachsiger Halbpäckwagen, BF 4281 - 4282

The Brig-Furka-Disentis railway company procured these two-axle cars as early as 1914. Some of them were half converted into baggage cars in the course of the 1920s. The models represent the variant of the Furka Oberalp Railway as they were on the road until the mid-1960s.

MOB

COMPAGNIE DU CHEMIN DE FER
 MONTREUX OBERLAND BERNOIS

MVR

TRANSPORTS
 MONTREUX VEVEY RIVIERA

MTGN - Cogwheel Railcar

Nm-551.1

Art.-Nr./item-no./produit-no.

Project of the MTGN railcar Bhe2/4 201ff. 3D-printed housing, raised etched lettering with adapted industrial running gear

Nm-551.1: Bhe2/4 201ff. der Rochers-de-Naye-Bahn, Zahnradtriebwagen, motorisiert (angepasstes Industriefahrwerk)

We are proud to present another project that we have been working on for a few months now and whose progress also gives us the opportunity to give you a glimpse of the current status.

The cogwheel railcar Bhe2/4 201 is being built in cooperation with Swiss Z Models, who designed the body and adapted it to our wishes. Built in is a revised Z-chassis with drive on all axles. With appropriate track construction, the railcar can master gradients of up to 25%.

The prototype runs on 800mm track, which is 4,5mm in the model. Our railcar will run on 6.5mm Z-track. Whether there will be a Ne version for 4.5mm has not yet been decided.

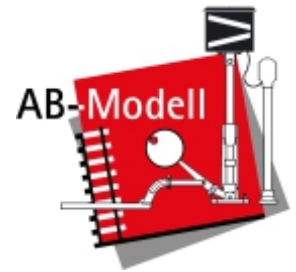

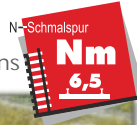

We publish current prices on our website at www.n-schmalspur.de. To be always up to date please subscribe to our newsletter. Thank you very much.

Catenary Bracket

Nm-Y00935

Art.-Nr./item-no./produit-no.

suitable for our Jungfrau Railway (and others)
 filigree brackets with two indicated insulators for rotating
 current catenary
 kit made of etched nickel silver, 2 pieces in kit
 for H-profile poles with 1,5x1,5mm outer dimensions

Nm-Y00935: Mastausleger nach Vorbild der Jungfrauabahn, für 1,5x1,5mm H-Masten, Bausatz, 2 Stück

finely printed and lacquered chime with insulators
 available as a set of two
 N-model from Klett Modellbau
 ready for installation

Zub-344.2: Läutewerk, Typ Filisur, mit Isolatoren, 2 Stück, 3D-Druck, einbaufertig lackiert, Hersteller Klett Modellbau

On Our Own Behalf

The problem with significant price increases and interrupted
 supply chains that can be heard in other sectors of the economy
 has now also reached the model railway industry.

Our announced prices for the models, some of which have
 already been confirmed to you, remain unchanged. For new
 models, we will gradually adjust the prices in the smallest
 possible steps, just as the basic prices for our basic materials will
 increase.

The payment terms have been changed. In future, invoices will
 be due after 10 days, no longer after 30 days. And the option of
 deducting a 2% discount from the invoice amount within a few
 days will no longer be offered. This contribution from you helps
 us to keep prices in line.

Delivery times have recently become longer. Both longer waiting
 times for the basic materials and the high demand for our
 models are the reason. We thank all customers who are patiently
 waiting for their vehicles.

The announced projects are subject to ongoing adjustments.
 As soon as one of these new models is ready for series
 production, we will contact you via newsletter. We therefore
 ask you to subscribe to the newsletter informally by e-mail!
 This way you will always be well informed.

You are missing new models from N-Track? Don't worry, we
 are in close contact with the Dutch manufacturer. There are
 new projects in the pipeline there too, but time is too short to
 put them into an attractive form and present them in our
 annual overview. As soon as there is news, our newsletter
 will tell you everything you need to know about the new
 products. We can already promise you that we are working
 together on really beautiful new rolling stock for you.

We publish current prices on our website at
www.n-schmalspur.de. To be always up to date
 please subscribe to our newsletter.
 Thank you very much.
