

Novelties-Presentation Advertizing Locos From MDS Are Available

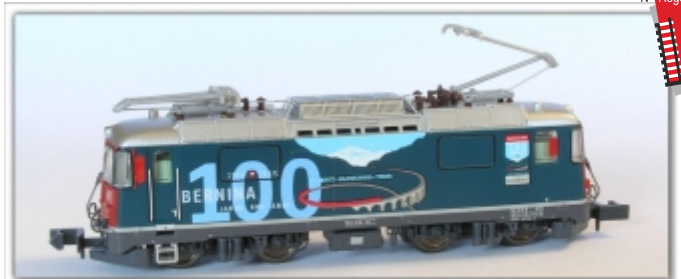

Dear friends of the Rhaetian Railway on track N,
Finally, the long-awaited advertising locomotives from MDS, based on the Ge4/4II arrived.
Three motifs can soon decorate your model railway.
All details can be found in our news.
We wish you a lot of reading pleasure
Yours AB-Modell-Team

MD-60002.N: RhB Ge4/4" 619, 100 Jahre Bernina, Spur N (9 mm), mit Rapidokupplung, MDS-Modell

RhB Ge4/4 II 619 - Bernina MD-60002.N

Art.-Nr./item-no./produit-no.

Ge4/4II 619 - Samedan
dark blue with red fronts, prototypically printed on 100th birthday of the Bernina line

MD-60003.N: RhB Ge4/4" 630, 100 Jahre Rheintal, Spur N (9 mm), mit Rapidokupplung, MDS-Modell

RhB Ge4/4 II 630 - Rheintal MD-60003.N

Art.-Nr./item-no./produit-no.

Ge4/4II 630 - Trun
green with red fronts, prototypically printed on 100th birthday of the Rhine-valley line Chur - Disentis

MD-60004.N: RhB Ge4/4" 620, 100 Jahre Engadin, Spur N (9 mm), mit Rapidokupplung, MDS-Modell

RhB Ge4/4 II 620 - Engadin MD-60004.N

Art.-Nr./item-no./produit-no.

Ge4/4II 620 - Zernez
brown with red fronts, prototypically printed on 100th birthday of the Engadin line Bever - Scuol-Tarasp

MDS has left a lot of time with the delivery of the advertising model. Originally planned for spring, the first models were released in mid-October.

The models correspond technically to the red number variants already delivered at the beginning of the year. Neither the case nor on the chassis, we have seen any changes. The most important features:

- coreless motor
- power on all axles, with 2 traction tires
- encapsulated gearbox (no dust / gravel penetration)
- coupler holder (also for Kato's close-coupling)
- light changes white / red depending on direction
- equipment analog, on request with built-in DCC Decoder or DCC sound decoder onboard (surcharge)
- prepared for loudspeaker installation
- handrails made of metal are extra attached
- electric cables and brake hoses are extra attached
- etching parts, e.g. at the front
- roof protective grille designed as etched part
- roof-tubings mainly of metal
- movable pantographs (inoperative)
- minimum radius 150mm

The advertising locomotives are 1st as an analog vehicle, 2nd digitized ex works, or 3rd digitized with sound on-board and built-in speaker. The digitization is done with a DCC Zimo decoder.

All models are printed very appealing and represent the prototype aptly. The pulling force is sufficient to be able to pull a longer car queue even in the minimum radius. We recommend to use radii from 183mm (Kato R2)! Kato close-couplings are available as accessories in the program, if desired also installed.

features	price/item-no.
RhB Ge4/4II 619, „100 Jahre Bernina“, track N (9mm)	EUR 155,00 MD-60002.N
RhB Ge4/4II 630, „100 Jahre Chur - Disentis“, track N (9mm)	EUR 155,00 MD-60003.N
RhB Ge4/4II 620, „100 Jahre Bever - Scuol“ track N (9mm)	EUR 155,00 MD-60004.N
Kato close-couplers-set, for one loco, 2 pieces per set	EUR 2,99 KT-096.0
assembly of close-couplers, incl. material	EUR 5,95 MD-60000.K
please order a digital version with the appendix D, price for one loco of the above mentioned type	EUR 190,00 MD-60002-D.N MD-60003-D.N MD-60004-D.N
please order a sound version with the appendix S, price for one loco of the above mentioned type	EUR 240,00 MD-60002-S.N MD-60003-S.N MD-60004-S.N

Current prices are published on our website.
The models are currently available for N-tracks only.
