

Novelties Delivery Ge4/4II of Rhaetian Railway

Dear friends of the Rhaetian Railway, finally the green Ge4/4II of the Rhaetian Railway are finished. Two new locomotives enrich the selection of RhB vehicles in N narrow gauge. The models will be delivered to the pre-orderers shortly. We hope you enjoy our newsletter.

RhB Ge4/4II 616 „Filisur“ Nm-232.1

Art.-Nr./item-no./produit-no.

Nickel silver handmade model of the RhB universal locomotive Ge4/4II Version green with light grey apron, RhB initials and Filisur municipal coat of arms.
Model with round headlights

Model

The model receives the green original paint as it was applied for the locomotives of the first construction series ex works. They are equipped with the round headlights from the delivery period.

The extensive lettering is on the side and end walls, partly raised. Free view through the driver's cab and engine compartment. Detailed representation of the roof area, including warning arrow on the pantograph.

Delivery / Delivery Dates

The locomotives already presented as novelties in 2021 are currently being delivered. We have written to the customers by e-mail.

The chassis have been numbered by N-Track. In addition, all models are provided with a serial production number. The enclosed certificate informs you about the details. For new orders, the regular price and a delivery time of 12 to 18 months apply, as we will not produce the next tranche of Ge4/4II models until 2023.

To match the locomotives, we will start production of the green unit and baggage cars in October. Due to the many pre-orders, it will take at least 7 to 8 months until delivery. We thank all customers for their patience.

We publish current prices on our website at
www.n-schmalspur.de.
