

## Novelties Delivery Kato's First Freight Wagons

Dear friends of the Rhaetian Railway,  
Kato's announcement that it will also produce freight wagons certainly came as a surprise. The models are available. We have compiled the most important information for you.  
Have fun reading

### Kato-Novelties

Kato has designed two new freight wagon models and delivered them a few days ago: a two-axle and a four-axle container wagon for the Rhaetian Railway. There are also two new interchangeable containers to match: the refrigerated container of the retailer Coop and the yellow containers of the Swiss Post. All vehicles have different road numbers, all containers are labelled differently, so you can put together a nice goods train.  
We offer all models in standard and narrow gauge.

#### RhB Ge4/4II 631

#### RhB Ge4/4II 618 RhB-Werbung

KT-073.2N/Nm

Art.-Nr./item-no./produit-no.

Express locomotive Ge4/4II 618, red, Bergün coat of arms  
Model with large RhB advertising  
Kato close coupling (standard N-coupling included)

**KT-073.2N:** RhB Ge4/4" 618, rot, Bergün/Bravuogn, RhB-Werbung, Kato-Modell für Spur N (9mm)

### Execution of the locomotives

The locomotives correspond to the already known and partly already delivered models: a middle engine without flywheel mass drives all axles. Two wheels are fitted with traction tyres. The Kato close coupling is fitted as standard.  
The conversion to the N-standard coupling can be done easily with the enclosed spare parts.  
Kato specifies a minimum radius of 150mm with a maximum gradient of 5%.  
The front light changes with the direction of travel.  
Kato offers a special exchange board for digitisation.  
Customers who wish to purchase a model that has already been digitised should contact us when ordering.  
The locomotives can - as before - be converted to N narrow gauge.

### Special- and Decalsets

If there is sufficient interest, we can also offer the models of the large freight wagon set individually. In this case, there is only a choice between the two- and four-axle carrying wagons, not to individual containers. For orientation, a wagon loaded with containers would cost the price of an unloaded plus 1/2 container set. With two wagons there would be a discount of approx. 4-5%.  
Also if there is enough interest, we could offer decals to redecorate the containers too.  
Please contact us if such an idea is of interest to you. Thank you very much.

### RhB Freight Wagon Set

KT-014.0N/Nm

Art.-Nr./item-no./produit-no.

8-piece freight wagon set container wagons contains 6 two-axle Lb-v and 2 four-axle Sb-t with 5 refrigerator swaps of the Coop + 3 swaps of the Post equipped with Kato close coupling (N-coupling enclosed)

**KT-014.0Nm:** RhB 8-tlg. Güterwagenset m. 6x2- u. 2x4-achsigen Tragwagen, beladen, Spur Nm (6,5mm), Kato-M.

Set contains:

- Lb-v 7860, Coop Pineapple
- Lb-v 7861, Coop Peach
- Lb-v 7862, Coop Radish
- Lb-v 7864, Coop Orange
- Lb-v 7867, Coop Potatoe
- Lb-v 7869, Die Post, white line
- Sb-t 65666, Die Post, durch Stadt und Land
- Sb-t 65668, Die Post, zügig

The swap bodies are removable and interchangeable. The set is delivered in the large Kato box. There is enough space for additional two Lb-v and two Sb-t.

If you are interested, we can equip your set with the additional models at a special price.

### Containerset Die Post

KT-014.3

Art.-Nr./item-no./produit-no.

two Swiss Post swap bodies motifs „landesweit“ and „bei Sonne und Regen“ for loading the vehicles models in scale 1:150, for N and Nm

**KT-014.3:** Wechselbehälterset PTT „747 landesweit“, „850 bei Sonne und Regen“, Kato-Modelle, Maßstab 1:150, für N / Nm

### Execution of the freight wagons

As expected, the two-axle carrier wagon Lb-v is designed without an open frame in order to accommodate a small weighting plate underneath.

The four-axle Sb-t wagon is prototypically designed with an open frame.

The loads can be unclipped and easily interchanged.

The gauge change of the models is feasible.

Since the Lb-v is very narrow, the coupling cannot be exchanged after conversion.

### Execution of the containers

The plastic containers are equipped without a base, with moulded-on legs. Use as a free-standing piece of equipment is only possible after a conversion to be carried out individually. All models are extensively printed and are firmly clipped onto the Kato carrier wagons.
